

## **BREAKING NEWS: Speaker Johnson Calls Out 'Unusual Activity' From Democrats Since Trump Took Office**

0:06

morning

0:21

BR good morning everyone hope everyone's doing well this morning um let's be real

0:27

on a couple things president Trump could have the cure for cancer and the

0:33

Democrats would still be upset Democrats are personality based

0:38

not policy based they never talk about the policies it's only the person look

0:46

no further than their latest liberal lunacy a year

0:51

ago the left loved the electric vehicle remember we're going to get rid of all

0:58

ice engines you got to you got have an electric vehicle right now what are they doing they're vandalizing the electric

1:05

vehicle now what I find is very interesting though is some of these very same cars are owned and driven by the

1:14

Democrats people in their own party I mean that is Democrat on Democrat crime if I've ever seen it now this shows

1:22

their playbook and unfortunately their values attack the

1:27

person not the policy which brings me to this before Democrats begin their next

1:35

fear-mongering campaign let me set the record straight last week president

1:41

Trump signed an executive order to improve our country's education

1:48

Republicans want the best outcomes for students and so does President Trump the

1:55

president simply asked the secretary to work with Congress to come up with a

2:01

plan a plan to put students first not the bloated bureaucracy teachers unions or Randy

2:09

weart like the rest of the federal government the US Department of Education needs to be run

2:16

efficiently and effectively we should focus the dollars on the students not

2:22

the administrators I mean despite billions of dollars being spent year after year and every year we

2:30

spend more what happens to our outcomes the test scores have not improved

2:36

they've gone the opposite direction the Department of Education has received more funding every year despite lower

2:45

outcomes the American people are paying more and getting less we can't keep

2:51

dumping more money into a broken system our goal is to make the education system

2:59

better and better for students Democrats are telling more lies their lies about

3:06

Medicaid have already been debunked and these education talking points should be

3:12

debunked too now shifting gears to what else happened during

3:18

recess I don't know if you noticed but Democrats had held a Medicaid day of

3:24

action right all got together big day of action but unfortunately they missed the

3:30

real day of action when they voted to shut the government down they voted

3:36

against Medicaid Medicare and Social Security recipients they voted against

3:43

paying our service members and they voted against funding Wick they also

3:49

voted against the American people this led to a complete Meltdown by the

3:55

Democratic party and when asked repeatedly whether he has confidence in

4:00

Senator Schumer um House minority leader took days to decide others have publicly

4:07

ridiculed Senator Schumer listen to some of their own comments quote Schumer is

4:13

supposed to be the leader of the opposition not a rank and file member of the GOP another one and I quote I think it's

4:20

a huge slap in the face and I think there's a wide sense of betrayal and some even called for Senator Schumer's

4:28

resignation again Democrats don't have a clear leader and recent polls prove this

4:35

when asked who best ref reflects the core values of the democratic

4:41

party there was no clear answer 10% said AOC she got the highest number of votes

4:48

9% said Camala Harris 8% said Bernie Sanders and rep Crockett a chosen your

4:56

fighter participant tied former president President Obama with 4% during recess I expected to see

5:04

Schumer and Jeff proving to the country that they are the leaders of the party

5:10

but do you know who filled the void for them Governor Waltz rep AOC and Senator

5:16

Bernie Sanders it seems that the extreme socialists are the leaders of the

5:22

democratic party and look and they took their message Nationwide socialists are

5:29

defining the Democrats identity Amin the leadership void I bet the this leads to

5:36

more democratic infighting fear-mongering of course an advoc advocacy for even more in extreme agenda

5:45

the Democrats will do this while their party's favorability rating is at an

5:50

alltime low G I wonder why meanwhile Republicans are united behind president

5:57

Trump in the American people's agenda and I'll say that again we are united

6:02

around president Trump and the American people's agenda Americans are optimistic

6:08

Americans believe the country is headed in the right direction Republicans are

6:13

getting the country back on track this is thanks to president Trump and Republicans efforts to restore common

6:22

sense and it's not a coincidence that President Trump's approval rating is reaching all-time highs and approval of

6:29

House Representatives is moving upwards as well House Republicans are securing the Border we are protecting women and

6:37

we are passing legislation to lower costs for American families we kept the government open and our day of action

6:45

was Voting to protect Medicaid Medicare and Social Security recipients and House

6:51

Republicans passed our house budget resolution and the Senate should pass it

6:57

to and I'll share with you we are just getting started so buckle up and because

7:03

we have a long way to go and a lot more wins on the horizon and here to speak

7:09

about the House Republicans work is freshman representative Pat Harrington from North Carolina he's a comeback

7:16

veteran and a small business entrepreneur and he's going to give his perspective on working in the unified

7:23

House GOP welcome Pat thank you thank you Mr Speaker

7:30

you don't probably need that box do you we could put it underneath the podium be right you don't need no hey good morning

7:36

everybody I want to talk about the Democrat disconnect and this should be a proper term at this point but I want to

7:42

share that when I came to Congress just a few months ago from day one it's been clear to me that we House Republicans

7:50

are both unified and focused we know who we are we know what we stand for and we

7:56

know what the American people sent us here to do the same cannot be said for

8:02

the Democratic party right now their party is in complete disarray their

8:08

Coalition is fractured their leadership has vanished and their message is

8:14

completely disconnected from the lives of ordinary Americans one year ago 75%

8:22

of Democrats approved of their party's performance in Washington just this last

8:27

week that number has collapsed to just 40% their base is abandoning them and

8:34

it's pretty darn easy to see why while Americans are struggling with the cost of groceries gas and rent Democrats are

8:43

putting on a nationwide socialist Road show with Bernie Sanders and AOC that's

8:50

their response to getting rejected at The Ballot Box just going even further to the

8:58

French AOC is literally sharing tips on how illegal immigrants can evade ICE at the

9:05

same time Bernie Sanders is on National Television claiming that no Democrat

9:10

supports open borders and illegal immigration the left hand doesn't know what the far left hand is actually doing

9:18

Democrats are too busy fighting each other and staging a coup against Chuck Schumer to offer any kind of real

9:25

substantive leadership there is a complete disconnect between between Democratic leaders and the American

9:31

people they aren't listening they aren't leading and they are not even pretending

9:36

to care about the kitchen table issues any longer instead they're doubling and

9:42

tripling down on the same radical policies that voters overwhelmingly rejected in November and I think that

9:50

that is an incredibly important point they voted against protecting women's sports they've blocked efforts to close

9:57

our Southern border they've refused to deport violent criminals sex offenders

10:03

gang members and murderers they've tried to decriminalize illegal border crossings and fought against voter ID

10:10

laws they've backed letting biological men participate in girls Sports turning

10:17

their backs on parents and most importantly basic Common Sense this is

10:24

not this is not a party that is looking to course correct it's a party moving even further to the left at the exact

10:31

moment voters are telling them to turn around meanwhile House Republicans all

10:37

of us up here are moving with genuine purpose and Clarity we're working to

10:42

secure the Border lower costs strengthen our economy and protect our communities

10:49

for the benefit of the American people the contrast could not be clear one party is delivering the other is falling

10:57

apart

11:06

for four years the Biden Administration allowed millions of illegal aliens into

11:12

the United States including the murderers of lake and Riley of Joselyn

11:17

andary and Kayla Hamilton only 12 days ago a Georgia mother of five was

11:24

brutally murdered by a monster who was caught and released by The Biden Administration in in

11:30

2021 the need to get dangerous illegal aliens out of our communities is urgent

11:36

under the Biden Administration our nation's adversaries became emboldened by the weak and incompetent leadership

11:43

displayed in the Oval Office the mission to restore Americans America's military

11:49

dominance and strength on the world stage has never been more urgent since 2017  
Americans have enjoyed historic tax

11:56

cuts implemented during President Trump's first term which grew real wages

12:01

by nearly 5% the call to keep those cuts in place and prevent a tax hike of

12:07

historic proportions is also urgent the mandate to enact president Donald

12:12

Trump's agenda is even more urgent in November 77 million Americans had a fire

12:19

underneath them when they went to the polls and voted for real change now

12:25

Congress ought to light our own match and get moving dragging our feet on reconciliation is  
not an option failure

12:33

is not an option and for border security not for National Security and not for

12:39

pro the prosperity of everyday Americans the Republican Trifecta must continue to

12:44

move in lock stepped with urgency for the American people as we've already done in  
historic ways the work ahead

12:51

will not be easy but we will get it done and we will deliver on our American

12:57

America First agenda Majority Leader thank you

13:04

whip while the Democrat Party continues to show the country that they are a

13:09

leaderless rudderless ship Republicans have been uniting to lead this country

13:15

out of the doldrums from the Biden Administration uh you can just look at the actions we've taken in the house uh

13:22

working with the Senate and with President Trump to start getting our country back on track and that hard work

13:28

is is already paying off for American families you're seeing gas prices start to come down egg prices are starting to

13:35

come down and what's really important for long-term growth billions and now trillions of

13:42

dollars of private investment are coming back home to America to create really

13:47

good high paying jobs for American workers the speaker and I were proud to

13:52

attend a White House ceremony yesterday with our governor and other leaders where Hyundai announced a multi-billion

13:58

dollar plan that they're building in the United States of America going to create about 1,400 jobs in Louisiana uh this is

14:07

just one of many examples that we're seeing that we call the Trump effect where we're seeing so many companies

14:14

invest heavily in Louisiana and other states in our state alone we've had probably over \$4 billion dollars of

14:22

private investment announced since president Trump took office again and that's not only really good jobs it's

14:30

things like energy security uh building more car manufacturing plants and the

14:36

resources that go along with it we'll no longer have to Source those materials from other countries hostile countries

14:42

in many cases will now be able to refine those materials here in the United

14:47

States as well with American workers that would not have happened without the

14:52

leadership of President Trump we've totaled up when you look at all the private investment that's come into the

14:58

United States just in the two months since Donald Trump has taken office it's nearly \$4

15:05

trillion in new jobs and investment in the United States of America that's

15:12

historic it's unprecedented and we're just getting started we've been talking

15:17

to president Trump I talked to him twice over the weekend about budget reconciliation now that we got

15:22

Government funding out of the way and the speaker did a phenomenal job of uniting Republicans imagine a CR to

15:29

government passed exclusively by Republicans one Democrat came along after we had the votes to pass it in the

15:35

house and then the Senate ultimately had to finally take that bill up and pass it

15:42

themselves uh which is what caused the Democrats to go into yet another Tail Spin because Democrats wanted to shut

15:49

the government down almost every Democrat voted against that bill which also by the way had a

15:55

40-year largest increase pay raise for our milit are men and women in uniform who

16:00

deserved that massive pay raise almost every Democrat voted no on that as well

16:06

as trying to shut the government down so they still don't want to be serious they're not going to be taken seriously

16:12

by the American people but we're going to keep doing our job and the next job is budget reconciliation that is number

16:18

one on President Trump's priority list now to get Congress to work together

16:24

with him to pass that one big beautiful bill that we've been talking about a bill that not only only locks in tax

16:29

rates creates more investment in the United States uh but also allows us to

16:35

produce more energy in America lowering costs for families uh creates more border security for America to allow

16:42

president Trump to continue the great work he's done we've seen over a 95% drop in illegal Crossings we need to

16:49

build out the wall we need to give more technology to our border patrol agents

16:54

that President Trump has asked for strengthening our National Defense and bringing Common Sense back into the rule

17:01

and Regulatory process in Washington these are just the first few months of what's going to be an historic majority

17:08

working for the American people delivering results for the American people and the man who's leading this

17:14

cause and uniting Republicans even with just a two- seat majority hopefully not for much longer we're going to grow that

17:20

number uh but even with that our speaker has been keeping us together moving our

17:25

agenda speaker Mike Johnson thank you leader scalise and these other

17:31

uh members um it's it's a great day but I'm I've got to address a couple of things with you and I need to start with

17:36

something that's pretty serious um Chuck Shimmer uh engaged in a lot of um

17:42

unusual activity last week but uh among the most concerning was his uh

17:47

invitation to activists Nationwide I want to I want to quote to you what he said on on PBS and I think in other

17:53

venues but this is what he said on that particular program quote we are mobilizing in New York we have people

17:58

going to to the Republican districts and going after these Republicans who are voting for this and forcing them to

18:05

either change their Vote or face the consequences unquote it was reminiscent of the threats he made to Supreme Court

18:11

Justices um year and a half ago or so on the steps of the Supreme Court it's it's dangerous rhetoric and and that message

18:18

was received so we had far-left activists go into uh into some of these events they they engage in a physical

18:25

altercation at at at least one of them rep representative Lawler in in New York uh just hours after he made that call to

18:31

action this isn't just a problem in that state it's it's a problem across the country and we had members who are

18:37

rightfully concerned about threats of physical violence at their events and in their districts some in some cases they

18:43

even went to uh events for their children at school it's gotten out of hand that behavior cannot be tolerated

18:49

it's an enhanced threat environment for a lot of reasons and we see Tesla dealerships being firebombed and all

18:56

these things happening it cannot be encouraged by leaders in Congress so I am calling on leader Schumer and and uh

19:04

leader Jeff in the house to put an end to this to to explain that threats of violence and and and intimidation like

19:11

that is not an acceptable form of political protest we all believe in free speech I used to defend it in courts but

19:18

this is something very different and it's very serious situation and they need to get control of that shuck

19:24

schimer and Congressional Democrats are feeling the Heat and they're lashing out because of it and we saw all sorts of uh

19:30

unusual activity over the last week it's well chronicled the Democrats have no vision no message no leader you heard

19:35

about it here today the American people have taken note CNN found that just 29%

19:40

of the people view the Democratic party favorably now uh NBC found the number at

19:46

27% Quinn poll over the weekend was an interesting one since they've been

19:52

taking the poll which goes back many years decades um Congressional Democrats are at their lowest approval

19:58

rating with their own base ever they're nine points underwater what's really interesting about that Politico did a

20:05

piece on this and they they contrasted where the Democrats stand and where we stand while they're at their lowest number of all time and they're nine

20:12

points underwater with their own base Congressional Republicans are at our highest Mark ever and we're at plus 69

20:19

points with our own base that's a pretty stark contrast and I think we all know why Axios reported yesterday that

20:25

Democrats are quote in their deepest hole in nearly 50 years years this is not a mystery everyone understands

20:32

what's happening and why in their haste to oppose president Trump and our efforts to make government more

20:37

efficient Democrats are cutting off their noses despite their own face look I've made a list of this they're cheering the decline of an American

20:44

company which employs over 100,000 workers they refused to celebrate the return of stranded American astronauts

20:51

because SpaceX facilitated their return without a hint of irony they're trading

20:56

in their electric vehicles for SUVs as was noted earlier all right they they they publicly refuse to stand for a

21:03

Childhood cancer survivor victims of violent crimes they in president Trump's joint address their message has gone

21:10

from it's more than just anti-trump now it's anti-American and everyone sees that and

21:16

the polling reflects it the American people are not stupid they understand what's Happening Here we have a word of

21:21

advice to our Democrat colleagues if you want to pull yourselves out of the Wilderness and the dolrs that you're in

21:26

get on board with the American people to support our Common Sense agenda it is

21:32

common sense to keep men out of women's sports it is common sense to secure the border and Deport dangerous illegal

21:38

aliens as you talked about earlier it is common sense to make government more efficient and and cut fraud waste and

21:45

abuse and do right by the taxpayer we are not doing these things because they're Republican priorities they are

21:52

there there are priorities because it's the right thing to do and the American people want the right thing to be done

21:58

and Democrats are opposing it and they see it very clearly republicans in Congress enjoy record high levels of

22:04

approval because we're we're engaging in what we understand to be simple truths and we're we're delivering on it we got

22:11

a small majority that's true but this House GOP conference has stayed together

22:16

and stayed laser focused on passing Common Sense legislation and executing the Trump agenda as quickly as possible

22:23

when we stay united we do right by the people I look forward to working with leadership and our Senate

22:28

counterparts to move that budget reconciliation bill it will be the largest most consequential piece of

22:34

legislation uh in decades maybe in one of the most in all of the history of Congress we're excited to deliver that

22:40

for the people and we have no time to waste we we've got almost 80 million people that supported president Trump

22:46

and and House Republicans we all had our largest totals ever we were going to do what they asked us to do and we are not

22:51

going to keep them waiting and so you're going to see us moving aggressively here and and across the country to make sure

22:57

that happens I'll yield your questions you just mentioned the Senate obv released statement yesterday about

23:04

this do you think that the Senate's ding their feet on reconciliation do you think they need to kind spe things up and hurry up well look I'm going to say

23:10

this and I I've been saying this consistently and I believe it um there's no daylight between House and Senate Republicans we are one team I I speak

23:17

with leader th um about this constantly and with individual uh members of the Senate over there um we're all United on

23:23

the mission and there's been different ideas about how to complete the mission but I think it's all coming together now

23:29

this week will be pivotal we have a big meeting at the White House later today with the leaders in both Chambers Republican leaders to um unite and get

23:36

this thing done uh we don't I don't fault the Senate um they've had a lot on their plates they had to get all the

23:41

confirmations done for the administration it takes a lot of floor time leader th's kept them in five days

23:46

a week just working around the clock getting their job done but we began in the house we have a bit of an advantage

23:51

over the Senate because we began this a long time ago in fact it was a year ago in March that we we first got the

23:58

committee chairs together and said start working on your reconciliation Bill priorities we knew that we would come to

24:04

Unified Government we were convinced that President Trump would win and that we would have the Senate and the house and we wanted to be prepared to lead we

24:10

put together the Playbook as you've all heard me talk about so many times and and we did all that work that took a lot

24:16

of time many many months to get us to where we are the Senate is a little bit behind Pace not because they weren't

24:21

working hard but because they were just engaging in other things and so what we're trying to do now is is Fast

24:26

Forward their process so they can get the cliff notes of basically what we did for the last year and Skip through some

24:32

of those steps because we'll all get to the same point and I I think that's very important I have been pressing very hard

24:38

very aggressively to get the reconciliation Bill done by late spring you've all heard me say that I mean I'm

24:44

trying to get this to the president's desk for Signature at least by Memorial Day I think it's very important I think

24:49

the timing is very important because we have to bring uh stability to the markets we've got to make sure everybody's tax rates are are locked in

24:56

and they know that so people can make decisions about expanding their businesses and jobs and other things we

25:01

we've got to um we it'll settle the bond markets it will secure the Border it will help us to restore and maintain

25:07

peace through strength and of course it'll prevent the largest tax increase in US history all those things are very important to get done quickly so that

25:13

the American people can feel the results of it this is going to be a great great piece of legislation historic and we're

25:19

anxious to get it done second R speaker Johnson as you know some of your Republican colleagues have signed on to

25:25

an effort to for use this method dur why not

25:38

a so I addressed this in in in conference this morning that's okay

25:45

um uh you good all right we're good all right good um we we addressed this in

25:51

conference this morning um uh a couple of our handful of our colleagues have have gotten behind the effort and and uh

25:57

look I am a I'm a father I'm I'm pro- family the Republican party is pro

26:02

family we want to make it as as as easy as possible for young parents to be able to parate in the process but proxy

26:09

voting in my view is unconstitutional in fact I feel so strongly about it I I helped present a brief to the United

26:15

States Supreme Court uh just about two years ago uh when or longer now all my days run together years run together but

26:21

when Nancy Pelosi invented proxy voting okay using covid as the excuse for that

26:27

um it took took us down a trail that I thought violated U the very document that organized us I don't think it's

26:33

constitutional I think the the founders intended uh that that you have a

26:38

inpres uh U you have a presence of the members there in person not just for Corum calls but for votes itself this is

26:46

a deliberated body you cannot deliberate with your colleagues if you're out somewhere else now there there are

26:51

family circumstances that make it difficult for people to attend votes I understand that I've had them myself

26:56

many of us have but the the leader was almost assassinated um he was out for

27:01

months and and uh and missed a lot of votes but his constituents understood that and we did and and we we carried

27:08

forward here's the problem if you create uh a proxy vote opportunity just for

27:14

young parents mothers and and the fathers in those situations um then where is the limiting principle people I

27:20

have have colleagues who feel equally convicted about this look what if what if what if someone um is ill or or what

27:27

if uh what if their spouse is ill what if their child U you know uh contracts some sort of disease or cancer heaven

27:34

forbid and they need uh prolonged treatment can they be out for that you know there's no limiting principle that

27:39

would that would uh that would stop that I think if we go down that road and so I believe it's unconstitutional I believe

27:45

it violates more than two centuries of tradition in the institution and I think that it opens a Pandora's Box where

27:50

ultimately maybe no one is here and we're all voting remotely by AI or something I don't know I don't think that's what Congress is supposed to be

27:57

so I I aared you know uh in in the room with all the house of Republicans this morning I I take I'm not angry at

28:03

anybody for doing this understand the motives are pure and Anna Paulina Luna has brought it Forward she has pure

28:09

motives and I talked to with her about it last night but I just can't as the leader of this institution and the one who's supposed to protect it um I I

28:17

don't feel like I can get on board with that and I think I have an opportunity to speak out about it so yeah last Mr leer um two questions on the same topic

28:24

um have you ever engaged in messaging with the Trump administra about

28:31

security whatever all those things and also think you know the story but I'm curious if the Biden Administration have

28:38

been found out that they were discussing National Security attacks on other countries over signal I wonder how you

28:45

well look the the White House came out with a statement I think within the last hour somebody handed me uh what they

28:50

said they clarified there were no war plans discussed there was no classified

28:56

material uh sent on that read uh the White House council's looking into the matter looking into how this other

29:03

number was inadvertently added obviously that was a mistake and a serious one uh but I just want to say I mean thanks to

29:09

president Trump and his strong leadership and all the uh everybody on that group chat the leaders on that group chat are extraordinary people I

29:15

know them all personally um they're Patriots they're doing a great job for the country and that was a successful Mission I mean we're taking out houy

29:22

terrorists that's what the American people uh expect the administration to do to to restore uh peace through

29:28

strength and to act decisively so look they they've acknowledged that there was an error and they're correct in it and I

29:35

would have asked the same thing of the bite Administration I don't think anyone should have lost their job over that because an errant number you know found

29:42

its way onto a um a dialogue between leaders um it's a mistake but we got to correct it going forward and they will

29:48

was the mistake adding the reporter or was the mistake having us chat about these matters at all I don't look I don't use signal I'm not I don't know

29:55

all the parameters of it so it's not my I'm not in position to deter DET whether that's appropriate or not you have to leave that to others but I would just

30:00

say um obviously we got to be careful with uh these things and and I know that they will I mean Mike Waltz is a

30:07

colleague of mine former colleague and a and a he was born for the job he is highly qualified president said he has

30:13

total confidence in them and we do as well so yeah last one on on judicial

30:19

impeachments you had a lot of resolutions that are in front of you right now I know your focus is on bud of reconciliation is your plan to bring up

30:26

these impeachment resolutions that for and if you do are you concerned this will stall any parts that you want to

30:31

make Bud we we're working with um the Judiciary Committee which is the appropriate area of jurisdiction for

30:37

that I talked to the chairman Jordan uh this morning about it and uh they'll be having a hearing uh early next week I

30:42

believe to highlight these abuses let me just say this and I I know that you all seen the numbers but this is a serious

30:48

problem I used to be a litigator I was constitutional law attorney used to litigate all these cases for 20 years routinely I would have activist judges

30:54

issue opinions against me and I would go get them over returned on appeal that's that is the process but something that's

31:01

happening right now that has not happened before in the last 100 years listen to this 67% of the injunctions

31:07

issued against a president were issued against one president alone and that's Donald J Trump 67% of the injunctions

31:14

over the last 100 years okay that's a problem 92% of those were issued by judges who were known or accused of

31:21

being partisan you know Democrat appointees to the court so that something unusual is happening something

31:26

that is out of the norm it is a a dangerous Trend and it violates Equal

31:31

justice under law that critical principle it violates our system itself it violates separation of powers when a

31:37

judge thinks that they can enjoin something that a president is doing that the American people voted for that is

31:42

not what the founders intended so there's a natural tension between the branches of of uh of U of the government

31:49

and and we're working through that the Judiciary Committee is looking at Alternatives one of the bills that I really like that's already been through

31:54

committee was authored by representative darl isa and that would link liit the scope of federal injunctions the ability

32:00

of one individual judge to to abuse the system in this way um and it would be in

32:05

my view a dramatic Improvement on that so we'll be moving I think that piece of legislation and some others to address it because we have an article one

32:12

Authority Under the Constitution to do that um we do have authority over the federal courts as you know we can we can

32:18

eliminate an entire District Court we we have power funding over the courts and all these other things but um desperate

32:24

times call for desperate measures and Congress is
